

# Have a Plan **STAY SAFE**

Use One, Two or all Three Customized Active Shooter Services:

## **1** Active Shooter Assessment

AFIMAC experts conduct a practical assessment of your facility, occupants and environment to identify points that require attention before an incident occurs.

## **2** Active Shooter Response Plan

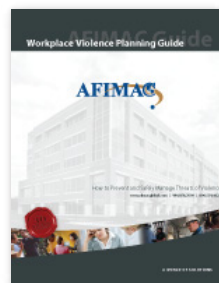

After completing a practical assessment AFIMAC delivers a tailored plan inclusive of response strategies and safeguards specific to your facility.

## **3** Active Shooter Onsite Response Training

AFIMAC experts train your employees and building occupants to navigate an active shooter incident with practical emergency response options that are appropriate for your facility and customized response plan.

“ Proper planning and training can reduce injury and liability related to an active shooter incident. ”
